

Dance Floors

The best way to calculate how many square feet you will need is take the total number of guests, divide by 2 (because only 1/3 to 1/2 of the people will dance at one time), and multiply by 4.5 square feet per person. This gives you the approximate square footage you will need for dancing, and then use this chart to pick the dimensions closest to that number.

3'x3' SECTIONS

INDOOR/OUTDOOR: BLACK & WHITE CHECKED*

FLOOR SIZE	SQUARE FOOTAGE	NUMBER OF SECTIONS
9'x9'	81 Square Feet	9
12'x12'	144 Square Feet	16
15'x15'	225 Square Feet	25
18'x18'	324 Square Feet	36
21'x21'	441 Square Feet	49
24'x24'	576 Square Feet	64
27'x27'	729 Square Feet	81

ADDITIONAL SIZES ARE AVAILABLE.

4'x4' SECTIONS

INDOOR/OUTDOOR: TEAK*

SOLID WHITE | SOLID BLACK | ACRYLIC | NEW ENGLAND PLANK

FLOOR SIZE	SQUARE FOOTAGE	NUMBER OF SECTIONS
8'x8'	64 Square Feet	4
12'x12'	144 Square Feet	9
16'x16'	256 Square Feet	16
20'x20'	400 Square Feet	25
24'x24'	576 Square Feet	36
28'x28'	784 Square Feet	49
32'x32'	1024 Square Feet	64

ADDITIONAL SIZES ARE AVAILABLE.

*Requires sub-floor on grass. The subfloor comes in 1'x2' sections.
